

Looking to get your critical data off-site?
**Online Backup Services
And Replication**

60%

60% of companies that lose their data will shut down within 6 months of the disaster.

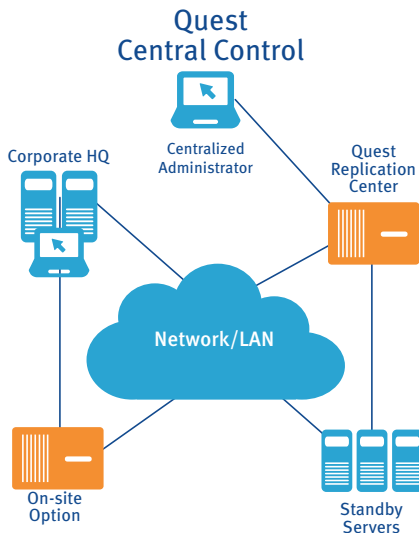

Looking to cut the costs of tapes and off-site tape storage? Thinking it might never work? Quest can help.

With Quest's online data backup services, you can be assured of a safe, secure backup which is easily implemented and maintained. And our online backup requires no special skills or experience on your part. We'll help you get your information off-site without delivery trucks or postage services.

Fast, easy and reliable.

With Quest's intuitive user interface, you can schedule your backups to match your requirements. With just a few clicks, your data will be safely and securely stored at one of Quest's global Service Delivery Centers.

Our Online Data Backup solutions far exceed old-fashioned tape backup for reliability, speed and ease of access. What used to take hours to locate and deliver will now be available at your fingertips.

Features:

- **Decrease backup times** up to 90%
- **Decrease total storage** up to 98%
- **Reduce or eliminate the need** for local tape infrastructure and enable cost-effective online retention and replication

All too often, the first time an organization tests the reliability of their backup is after data loss.

Safe & Secure

You'll have the full capabilities of Quest's Service Delivery Centers at your disposal to access local services as well as global replication for advanced security and safety. Spanning the United States and reaching into both Asia and Europe, Quest's 24x7 Service Delivery Centers provide Quest's many and varied Cloud, Managed Services, and IT operations capabilities.

Contact Quest for Online Backup and Replication services.
