Disaster Recovery Workshop

Expect the unexpected and create a roadmap to recovery following a disaster or disruption

Quest's DR Workshop offers:

Validation and Sound Preparation

Whether you're starting from scratch or looking for an expert opinion on your existing plan, our Disaster Recovery specialists can help – your Workshop can concentrate on establishing your organizational recovery requirements, or focus on further developing and perfecting your plan. We'll work with your staff to:

- Identify technical and business process gaps
- Define stakeholders, recovery teams, and processes/functionalities necessary for operation
- Highlight missed expectations from a data loss and recovery time perspective
- Address compliance with regulatory agencies and industry standards

Customized Recommendations

In today's vendor marketplace, the cookie-cutter/checkbox approach to Business Continuity Planning/Disaster Recovery (BCP/DR) can lend to unintended oversight. Quest specializes in delivering flexible solutions, so your DR Workshop recommendations won't force your business into a mold designed for somebody else's company.

A Blueprint for Business Resilience

As technology integration grows tighter and more sophisticated, so do security risks. Quest's DR Workshop will help you plan for almost any kind of disruption, so your organization can be dynamic, responsive, and recoverable after disaster strikes.

WORKSHOP DETAILS

Date/Time

What works for you and your team? Depending on your availability and requirements, we can meet with you as soon as possible, or in the near future.

Location

The DR Workshop can be conducted onsite at your location or at Quest's Roseville, CA office.

Recommended Attendee Titles

If you are not the business owner and/or key decision maker, please ensure they are present; business operations/decisions are directly tied to technology requirements for most organizations. We also recommend having these key team members present:

COO	CEO	CRO	CIO	CTO
CAO	CCO	Department Managers		

Preferred Documentation to Review

We recommend having the following items ready to review for this Workshop, if they are available:

Latest Audit Results	Network Drawings
Current DR and/or BCP Policies	

Timeline at a Glance

Pre-Workshop: Scheduling kickoff call, establishing priorities

Kick-Off Call: Introductions, agenda, expectations

Workshop: Conduct a one-day, on-site Workshop

Final Review: Quest provides Executive Summary including recommendations and action items
