

# Make sure your firewall isn't someone's welcome mat.

The bad guys keep getting smarter. And it's up to you to make sure they don't get into your network.

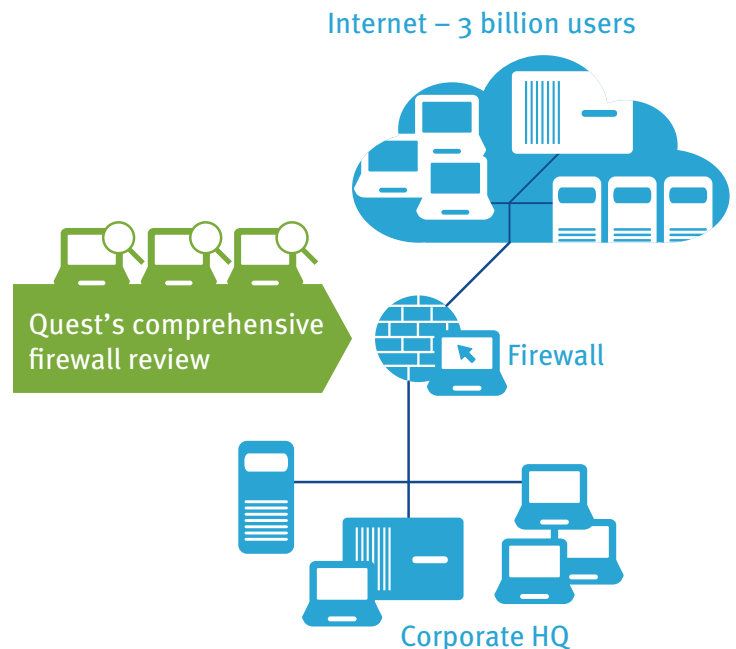

We can help.

## Why a Firewall Review?

With constant changes to your network and the drive to deliver reliable communication via the Internet, your firewall is a key element to maintaining security. Quest's Firewall Review provides an expert analysis of your situation and reports any open threats and/or vulnerabilities in your configurations.

## Quest's Firewall Review benefits:

- Third-party analysis of potential or existing threats
- Review best practices for access control list
- Understand what role you play in your security plan
- Explore emerging security solutions to include Intrusion Detection and/or Protection Services

Check out Quest's Firewall Security Video

## Quest's Firewall Review includes:

- Firewall configurations analysis
- Review of access control
- In-depth look into what security aspects you and your managed services provider are truly responsible for
- Recommendations and next steps
